

ScriptFTP syntax highlighting for PsPad

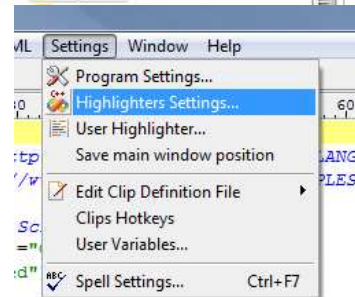

Installation instructions

Last update: January 13th 2009

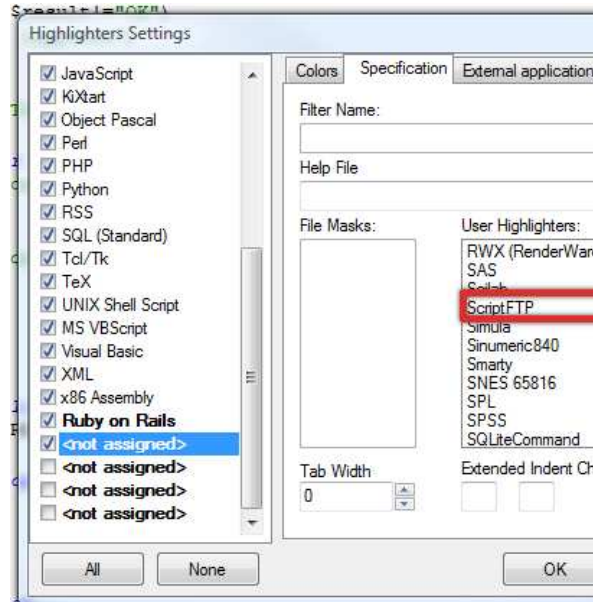

1. Copy the file ScriptFTP.INI from this ZIP file to the "Syntax" subdirectory located under the directory where you installed PsPad, usually C:\Program Files\PsPad editor.

2. Open PsPad, and select the menu Settings->Highlighters settings.

3. Find an empty slot in the left column (scroll down), select it and under the tab "Specification" select ScriptFTP from the "User Highlighters" list.

4. Click OK. From now on, every file with the extension .ftp will have a coloured syntax.

```
#
# Script language reference http://www.ScriptF
# Script Examples      http://www.ScriptFTP.c
#
# Save it and click Run on the ScriptFTP windo
IF($result!=12001 AND $result!="OK")
    PRINT("Other error happened")
END IF

LOGTO("d:\DESKTOP\LOG.TXT")

# Connect to FTP server
OPENHOST("127.0.0.1","carl","12345")
```
